### TECHNICAL INSTRUCTIONS

### PRODUCT OVERVIEW

This bendable plaster-in LED profile features a 21.2 mm internal channel and includes a silicone diffuser to provide smooth, even light while hiding individual LED chips. Designed to be recessed and plastered flush into walls or ceilings, it can bend both top and side to accommodate curved or straight runs.

The profile allows top bending with a minimum diameter of 300 mm and side bending with a minimum diameter of 700 mm, making it ideal for wide, trimless architectural and ambient lighting installations.
