PRODUCT OVERVIEW

The Arc LED 2 Metre Slim Shadow Gap LED Profile (Silver) is a recessed aluminium LED channel designed to create a clean, modern shadow gap lighting effect along walls or ceilings. It measures 2 metres in length with an internal size of ~10.5 mm, making it suitable for standard narrow LED strip lights. The profile comes in a sleek silver finish and includes an opal diffuser that softens and spreads light evenly while helping to hide the LED chips for a smooth, ambient glow.

Ideal for minimalist architectural lighting, this slim shadow gap profile adds subtle accent illumination to rooms while blending seamlessly into contemporary interiors.
