### TECHNICAL INSTRUCTIONS

### PRODUCT OVERVIEW

The ARC-SWWPB 2 Metre Slim Wall Washing Plaster-In Aluminium Profile (White) is a recessed LED channel designed for slim wall-washing lighting installations in plasterboard or drywall. It features a white aluminium finish and an internal channel of approximately 20.7 mm, suitable for standard LED strip lights. An opal diffuser is included to soften and spread the light evenly while concealing individual LED chips for a smooth, uniform wash across walls or ceilings. This profile installs flush into plastered surfaces for a clean, minimalist architectural lighting effect, delivering subtle ambient illumination that highlights interior features.
